

Table of Contents

Session A: Reinforced Concrete Structures I

Torsional Responses of an RC Low-Rise Building Model Having Irregularities at Ground Story	1
<i>Han Seon Lee and Kyung Ran Hwang</i>	
Experimental Study on the Impact Damage of Reinforced Concrete Walls Caused by Collision of Tsunami Debris	11
<i>Hidekazu Watanabe, Susumu Kono, and Satoshi Nakamura</i>	
An Experimental Study On Confined RC Wall Boundary Regions under Uniaxial Monotonic and Cyclic Reversal Loadings	19
<i>Eko Yuniarsyah, Rafik Taleb, Susumu Kono, and Masanori Tani</i>	
Bond Strength Model for Beam Re-bars in Interior Beam-Column Joints	29
<i>Hong-Gun Park, Hyeon-Jong Hwang, and Tae-Sung Eom</i>	
Effect of Bi-directional Lateral Loading on In-plane Shear Resistance of RC Wall	37
<i>Takanori Matsui, Yuki Idosako, Masanobu Sakashita, and Minehiro Nishiyama</i>	

Session B: Tall Buildings and Base Isolation

Structural Design of the Tallest Building in Korea	47
<i>Jong-Ho Kim, Yeonki Jung, Jidong Kim, Jaehyuk Lee, and Taejin Kim</i>	
Study on Dynamic Behavior of High-Rise Base-Isolated Building Based on Its Responses Recorded during The 2011 Tohoku-Oki Earthquake	57
<i>Kazuhiro Matsuda and Kazuhiko Kasai</i>	
Experimental Study of a Piezoelectric Sliding Isolation System for Seismic Protection of Equipment	67
<i>Lyan-Ywan Lu and Kuan-Wen Pong</i>	
Seismic Performance of Structures Base-Isolated with Rocking Bearing	77
<i>Chin-Tung Cheng and Chih-Hong Chao</i>	
New Structural System with Double Reinforced Concrete Beams for Long-Span Structures	87
<i>Jae-Man Lee, Kil-Hee Kim, Kwang-Man Kim, Yong-Jun Lee, and Jung-Yoon Lee</i>	

Session C: Steel Structures

- Seismic Performance of Low-Rise Steel Intermediate Moment Resisting Frames 97
Hyung-Joon Kim and Jin-Young Park
- Experimental Evaluation of Composite Columns Confined by Multiple Interlocking Spirals
. 103
Ching-Yu Liang, Cheng-Chih Chen, Cheng-Chiang Weng, Samuel Yen-Liang Yin, and Jui-Chen Wang
- Cyclic Loading Test on RHS Columns under Bi-directional Horizontal Forces and Constant
Axial Force 111
Takanori Ishida, Yuko Shimada, and Satoshi Yamada
- Seismic Tests of Large-Scale Steel Energy Dissipating Braces: Dual-Core Self-Centering
Brace and Sandwiched Buckling-Restrained Brace 121
Chung-Che Chou, Ping-Ting Chung, and Yu-Tsen Cheng
- A Case Study of Seismic Performance of Special Concentrically Braced Frame with
Strongback System 129
Chui-Hsin Chen, Yao Tang, and Yi-Rung Tsai

Session D: Damping Systems

- Mitigation of Off-Tuning Effect of Floor Vibration by Using Asymmetric Tuned Mass
Damper 137
Sung-Yong Kim, Cheol-Ho Lee, and Dong-Guen Lee
- Performance Verification of a Leverage-Type Stiffness-Controllable Mass Damper 147
Shih-Yu Chu, Lyan-Ywan Lu, Shih-Wei Yeh, and Chih-Hua Peng
- A Fast Computer Vision Method for Liquid Height Measurement of TLCs 157
Junhee Kim, Chan-Soo Park, and Kyung-Won Min
- An Assessment for the Design of High-Damping Rubber Bearings Using Bilinear and
Effective Linear Models 165
Pei-Chuan Chao and Yin-Nan Huang
- FE Analysis of Multi-Storey RC Frames with Energy Dissipating SIM panels 175
Yuri Totoev and Zhiyu Wang

Session E: Masonry Structures and Infilled Frames

- Multi-Level Evaluation of Stone Pagodas under Earthquake Loading 185
Namhee-Kim Hong and Sung-Gul Hong
- Seismic Performance Evaluation of Earthquake-Damaged Buildings in Indonesia Affected
by Brick Masonry Infill 195
Maidiawati, Yasushi Sanada, and Jafril Tanjung
- Analytical Model for Capacity Curve of Confined Masonry Wing-Walls 205
Yi-Hsuan Tu, Tsung-Hua Chuang, and Hsing-Yu Yeh
- Proposal of Simplified Backbone Curve for URM Wall Infilled RC Frame 217
Ho Choi, Kiwoong Jin, and Yoshiaki Nakano
- Seismic Fragility of Lightly Reinforced Concrete Frames with Masonry Infill 227
Jong-Su Jeon, Ji-Hun Park, and Reginald DesRoches

Session F: Reinforced Concrete Structures II

- Seismic Evaluation of RC Slab-Column Frames and Proposed Changes to ACI 369 & ASCE
41 239
Thomas H.-K. Kang, Amy C. Hufnagel, YeongAe Heo, and Sohyun Moon
- Structural Experiments of One-Story One-Bay R/C Moment Resisting Frames with Non-
Structural Walls 249
Rok-Hyun Yoon, Yasushi Sanada, Suguru Suzuki, Takumi Akahori, and Hiroshi Kuramoto
- Experimental Study of Alternative Detailing for Coupling Beams 257
Shyh-Jiann Hwang, Erwin Lim, Chih-Hung Cheng, Ting-Wei Wang, and Yu-Hsuan Chang
- Analytical Study on Seismic Behavior of Horizontal Hybrid Structure of Wood and RC
. 265
Yoshihiro Yamazaki and Hiroyasu Sakata
- Cyclic Testing of Precast High-Strength Reinforced Concrete Columns with Welded
Transverse Reinforcement 275
Yu-Chen Ou and Harun Alrasyid
