

Preface

The proceedings contain papers presented at the 17th Taiwan-Korea-Japan Joint Seminar on Earthquake Engineering for Building Structures, SEEBUS2015, Yokohama, Japan, September 18-19, 2015.

The principal contributors are as follows:

<u>Taiwan</u>	<u>Korea</u>	<u>Japan</u>
Heui-Yung CHANG	Jung-Taek CHOI	Kiyooki HIRAKAWA
Cheng-Chih CHEN	Thomas KANG	Iswandi IMRAN
Chien-Kuo CHIU	Dae-Hwan KIM	Jin-Woo KIM
Chung-Che CHOU	Junhee KIM	Yuebing LI
Shih-Yu CHU	Kil-Hee KIM	Kazuhiro MATSUDA
Yin-Nan HUANG	Sung-Yong KIM	Kazuya MITSUI
Shyh-Jiann HWANG	Kyungkoo LEE	Taku OBARA
Lyan-Ywan LU	Ji-Hun PARK	Kouhei TAKATSUKA
Yu-Chen OU	Hong-Gun PARK	Masanori TANI
Yi-Hsuan TU		Hidekazu WATANABE

The purpose of the Joint Seminar is to bring together researchers and experts from Taiwan, Korea and Japan to discuss the most recent developments on earthquake engineering for building structures. The coordinators would like to thank all the authors for their participation and for their cooperation in ensuring a high quality seminar. We hope that the proceedings will form valuable basis for further developments in this important field of structural engineering and in serving the public.

Coordinators: Chung-Che Chou (Taiwan)
 Cheol-Ho Lee (Korea)
 Susumu Kono (Japan)

Yokohama, Japan, September 2015

Table of Contents

September 18 (Fri.)

1. Session A: Reinforced Concrete Structures 1

Static Loading Test on A Full Scale Five Story Reinforced Concrete Building utilizing Wing Walls for Damage Reduction

Damage evaluation of the 2nd floor beam with secondary walls and RC slab

Hidekazu WATANABE, Fuhito KITAMURA, EKO Yuniarsyah, Tomohisa MUKAI, Masanori TANI, Susumu KONO, Masaki MAEDA and Hideyuki KINUGASA..... 1

Lateral Load Experiment for Confined and In-Filled Unreinforced Masonry Panels with Openings in RC Frames

Yi-Hsuan TU, Yuan-Hsin HSU and Yen-Fen CHAO..... 9

Retrofitting of Unreinforced RC Exterior Beam-Column Joint by Installing Wing Walls

Yuebing LI and Yasushi SANADA..... 19

Efficiency of Strengthening T-shaped RC beams with Ultra High Performance Concrete

Jung-Taek Choi and Sung-Gul Hong..... 29

An Experimental Study on the Local Damage of Reinforced Concrete Walls Caused By Collision of Tsunami Debris

Hidekazu WATANABE, Satoshi NAKAMURA, Susumu KONO, Kazunori FUJIKAKE, Amornthep SOMRAJ and Hitoshi TANAKA 37

2. Session B: Tall Buildings

Application of Performance-Based Seismic Design to Tall Ordinary Shear Wall Buildings in Low to Moderate Seismicity Region

Dae-Hwan Kim, Minhee Lee, Taejin Kim and Yongjei Lee 47

Design Examples of High-Rise Steel Buildings Using SM570 Steel and F14T Bolts

Heui-Yung CHANG, Chutsen LIAO and Ker-Chun LIN..... 57

Seismic Hazard Level for the Retrofit of Existing Buildings

Ji-Hun Park and Seong-Ha Jeon..... 65

Supertall Compact City Abeno Harukas

Kiyoaki Hirakawa, Kazuhiro Saburi and Souichirou Kushima..... 75

3. Session C: Steel Structures

A Steel Column Base Connection with Shape Memory Alloy Rods

Cheng-Chih CHEN, Rung-Shiuan TSAI, Huan-Wei LIN and Jheng-Yi LIN..... 85

Modal Properties and Seismic Application of Asymmetric Tuned Mass Dampers

Sung-Yong KIM and Cheol-Ho LEE..... 93

Effect of Weld Access Hole and Flexural Strength on Deformation Capacity until Fracture of Moment Connection of Tall Steel Building

Kouhei TAKATSUKA, Keiichiro SUITA and Tsuyoshi TANAKA 103

Experimental Assessment for Rotational Capacity of Column-Tree Steel Moment-Resisting Connection with Bolt-Slip

Kyungkoo LEE, Jinwon SHIN, Eunji SON, Seungpyo HONG and Eungoo JEONG 111

Modified Effective Slenderness Ratio for Light Gauge Built-Up Compression Member

Kazuya MITSUI, Atsushi SATO, Hisayuki OKADA and Tetsuro ONO..... 121

September 19 (Sat.)

4. Session D: Base Isolation systems / Damping systems

A Multi-Functional Floor Isolation System Using Variable-Stiffness Sliding Isolators

Lyan-Ywan Lu, Liang-Wei Wang and Shih-Wei Yeh 133

Study on Passive Control Design Method for MDOF System Composed of Bilinear + Slip Model Added with Visco-Elastic Damper

Kazuhiro MATSUDA and Kazuhiko KASAI 143

Variable Voltage Sensing Systems for Measurement of Wave Height in TLCDS

Seok-Jung JANG, Junhee KIM and Kyung-Won MIN..... 153

Stiffness Controllable Mass Damper System with Least Energy Control Method

Shih-Yu Chu, Lyan-Ywan Lu, Shih-Wei Yeh and Chih-Te Chien..... 161

Elasto-Plastic Behavior of Shear Type Damper Using Low-Yield-Strength Circular Hollow Section

Effective aspect ratio, diameter and diameter-thickness ratio

Jin-Woo KIM, Susumu KUWAHARA, Kazuaki MIYAGAWA, Tomohiro KINOSHITA, Wataru KITAMURA and Seiji MUKAIDE..... 171

5. Session E: Composite Structures / Reinforced Concrete Structures 2

Structural Testing and Behavior of Multi-Bolted Joints in Pultruded Fiber Reinforced Polymer I-Beams

Chung-Che Chou, Pi-Fan Sun, Kuo-Chun Chang and Fang-Yao Yeh 179

Experimental Study on Macro Synthetic Fiber Reinforced Concrete (MSNFRC) Confined Columns under Concentric Axial Compression

Iswandi IMRAN and Rosidawani 187

Prediction of Lateral Load Deflection Curves for RC Short Columns Failed in Shear

Yi-An LI and Shyh-Jiann HWANG..... 197

6. Session F: Reinforced Concrete Structures 3

Shear Crack Control for HSRC Beams Considering the Effect of Shear-Span to Depth Ratio of Member

Chien-Kuo Chiu..... 207

Cyclic Loading Tests for Low-Rise RC Walls with 550 MPa Shear Bars

Baek, Jang-Woon and Park, Hong-Gun 215

Lateral Force-Displacement Prediction of Uncorroded and Corroded Reinforced Concrete Beams Using Modified Axial-Shear-Flexure Interaction Approach

Yu-Chen OU and Nguyen-Dang NGUYEN 223

Full-Scale Experiment on Non-Structural R/C Walls Focused On Failure Modes and Damage Mitigation

Masanori TANI, Tomohisa MUKAI, Masaya OGURA, Rafik TALEB and Susumu KONO..... 237

7. Session G: Reinforced Concrete Structures 4

Performance of Post-Tensioned Anchors and Post-Tensioned Beam-Column Joints

Thomas H.-K. Kang, Ah Sir Cho and Byung Un Kwon..... 247

An Experimental Study of the Cyclic Behavior of Low Aspect Ratio SC Wall Piers

Chang-Ching CHANG, Yin-Nan HUANG and Po-An CHEN..... 257

Bond Action Effect of Longitudinal Cut-Off Bars on Shear Transfer Mechanism of RC Beams

Kil-Hee Kim, Young-Seek Kim and Sang-Woo Kim..... 267
